## Company outline

Trade name NIPPON STEEL Chemical & Material Co.,Ltd

Headquarters (Nittetsu Nihonbashi Building) 1-13-1, Nihonbashi,Chuo-ku,Tokyo 103-0027,Japan Phone: +81-3-3510-0301 Fax: +81-3-3510-1161

Representative	Director President Migita Akio
Establishment	October 1956 October 1,2018 <management integration=""></management>
Capitalization	5 billion yen (as of March 31, 2023)
Stockholder	NIPPON STEEL CORPORATION (100%)
Consolidated net sales	274.5 billion yen (Fiscal 2022)
Consolidated number of employees	3,414 (as of March 31, 2023)
Website	https://www.nscm.nipponsteel.com

Group's corporate philosophy

### Basic philosophy

## Master Materials, Pioneer the Future For Your Dream & Happiness

Nippon Steel Chemical and Material Group will develop and accumulate advanced chemical and material technologies independently, offer products and services that will enrich people's lives through the advanced and varied use of materials, and contribute to the global environment.

## Management principles

Nippon Steel Chemical and Material will implement corporate activities focusing on the following issues, ensure fair and transparent management, and continue to grow as a company widely trusted in society.

- Contribution to the global environment
- Realization of a society that is healthy and rich in humanity
- Co-creation and co-prosperity with customers
- Realization of growth and happiness of employees

#### Action guidelines

## Trust

We will comply with laws and social rules, think about things from the perspective of society and customers, aiming to win their trust.

## Challenge

We will encourage the growth of both ourselves and the company, and we will continue to challenge our goals while obtaining a proper understanding of our own roles without losing our high aspirations.

## Contribution

We will respect the diversity and personality of each individual employee, support each other and work hard together to produce the best results as organizations and teams and contribute to society.

## Organization

- Personnel Dept.
- General Administration Dept.Legal Dept.

CSR Dept.

## Corporate Planning Div.

- Budget, Accounts & Finance Dept.
- Strategy Planning Dept.
- Technical Administration & Planning Dept.
- Environment & Safety Dept.
- Quality Management & Planning Dept.
- Intellectual Property Dept.
- Process Technology & Development Dept.
- IT Planning & Promotion Dept.
- Business Development Planning Dept.

# Research & Development Div.

- Administration & Planning Dept. Carbon Materials Center Organic Materials Development Center
- Functional Resin Materials Development Center Optical & Display Materials Center
- New Materials Development Center Basic Technology Integration Center
- Process Development Center

## Kyushu Works Administration Dept.

Production Dept. Engineering & Maintenance Dept

# Himeji Works Administration Dept. Quality Control Dept. Chemicals Production Dept. Micron Production Dept. Composite Production Dept.

Coal Tar Chemicals Div. Business Planning Dept. China Business Administration Dept. Carbon Materials Dept. Kashima Works Gas Dept. **Chemicals Div.** Business Planning Dept. Chemicals Dept.1 Chemicals Dept.2 Lubricants Dept. Functional Materials Business Management Dept. Functional Resins / PWB Materials Div. Business Planning Dept. Procurement Dept. Espanex Sales Dept. Functional Resins Sales Dept. **Display Materials Div.** Esfine Sales Dept. OEL Dept. Metal Foil Products Div. Sales Dept. Quality Assurance Dept. Metal Foil Production Dept. **Overseas Production** Support Dept. Micron Div. Nippon Micrometal Corporation Composite Div. Business Planning Dept. Infrastructural Use Dept. Industrial Use & TEPreg Dept.

MCND Div. MCND Dept. MCND Production Dept.

# NIPPON STEEL Chemical & Material

Master Materials, Pioneer the Future For Your Dream & Happiness

## Master Materials, Pioneer the Future

# Aiming at the number-one ability to make comprehensive proposals on materials

Contributing to the preservation of the global environment and realization of affluent lives through high-degree application of chemical and material technologies.

## Nippon Steel Chemical and Material Group

## Coal tar chemicals business

## NIPPON STEEL Carbon Co.,Ltd. Nippon Techno-Carbon Co.,Ltd.

Developing various carbon material businesses by effectively utilizing coal tar obtained as a by-product in iron-making processes.

#### Main products

- Pitch cokeNaphthaline
  - trialine
  - Carbon blackIndustrial gas
- Phthalic anhydride

Pitch

Nippon Micrometal Corporation

DI DIACK

- - NS Styrene Monomer Co.,Ltd.

## Chemicals business

Offering a wide lineup of products including basic chemicals such asaromatics generated through the fusion of coal chemistry and petrochemistry, as well as environment-friendly specialized chemicals.

- Main products
- Aromatic chemicalsFunctional chemicals
- Styrene monomer
- Divinylbenzene
   Lubrication materials and control diagnosis

NIPPON STEEL Epoxy Manufacturing Co., Ltd.

Specialized carbon products

Nippon Graphite Fiber Co.,Ltd.

NIPPON STEEL Functional Material Manufacturing Co.,Ltd.

# Functional material business

For a wide range of applications such as electronic, automotive, aerospace, and civil engineering and construction fields, Utilizing our original development technology, we are developing a variety of one-ofa-kind businesse.

## Main products

- Functional resins and circuit board materials (Copper-covered laminates for non-adhesive FPC and epoxy resins)
- Display materials (Liquid crystal and organic EL)
- UV and thermosetting resin materials
- Metal foils
- Metal carriers for emission gas purification
- Ceramic spherical particulates
- Bonding wires for semiconductors
- Carbon fiber composites
- Pitch-based carbon fibers

 Porous carbon materials (catalyst carriers for fuel cells)

# Research and development system

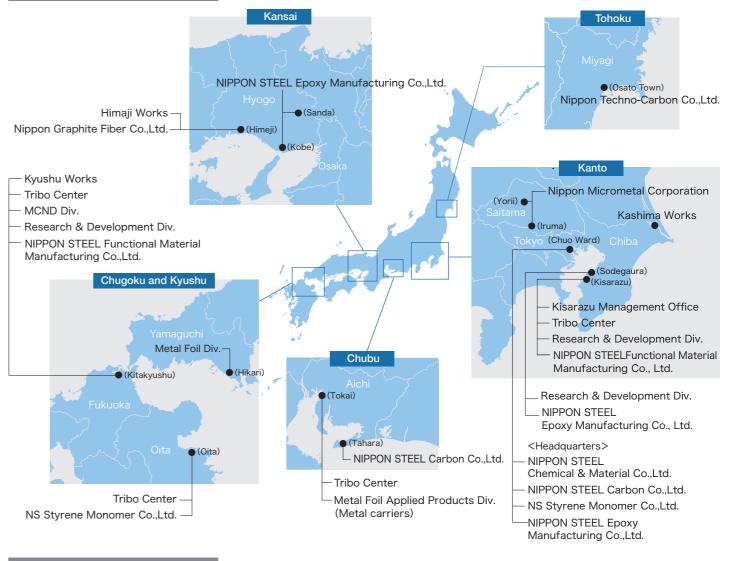

Research & Development Div.

Sodegaura, Kisarazu, Himej, Kitakyusyu

Collaboration in research and development

Nippon Steel Technical Development Headquarters Advanced Technology Laboratory

In our group's efforts in research and development, not only a system centered around the centers of the Research & Development Div. covering a wide variety of fields, but also collaboration in research and development with the laboratories of the Technical Development Headquarters of Nippon Steel Corporation that have the world's most advanced technologies are great advantages.

## Foreign business locations

**Domestic business locations**
